Capital Plan 2024–25	1
Projects by Type	2
Projects by Department	10

What Is the Capital Plan?

Each year, the government prepares the Capital Plan to lay out infrastructure investments for the coming year. The plan includes a list of capital assets, like schools, hospitals, roads, buildings, vehicles and technology, the public sector intends to acquire or develop to meet a need or achieve a goal.

The Capital Plan reflects the Department of Public Works' 5-year highway plan and the Department of Education and Early Childhood Development's school plan. Some projects are funded over many years and appear in successive capital plans.

The Capital Plan is tabled in the legislature and subject to approval with the provincial budget.

Capital Plan 2024-25

The Province’s capital spending program for 2024-25 will advance healthcare projects more quickly and ensure Nova Scotians can access new and improved hospitals, modern schools, safer highways and roads and other improved infrastructure.

Capital Plan 2024-25 will invest more than \$1.6 billion to start new projects and continue work on previously announced projects.

The plan invests in the Province’s Action for Health Build plan. Healthcare capital projects include:

- \$301.7 million for Halifax Infirmary expansion and Cape Breton Regional Municipality healthcare redevelopment projects
- \$108.3 million for construction and renewal of other hospitals and medical facilities including projects in Bridgewater, Pugwash, Yarmouth, Amherst and at the IWK Health Centre
- \$53.1 million for electronic health records (One Person One Record)
- \$32 million to repair and replace medical equipment
- \$22 million to repair, replace and renew medical facilities
- \$20.2 million for various Action for Health capital initiatives
- \$17.9 million for new Multi-Disciplinary Oncology Partnership

Other highlights include:

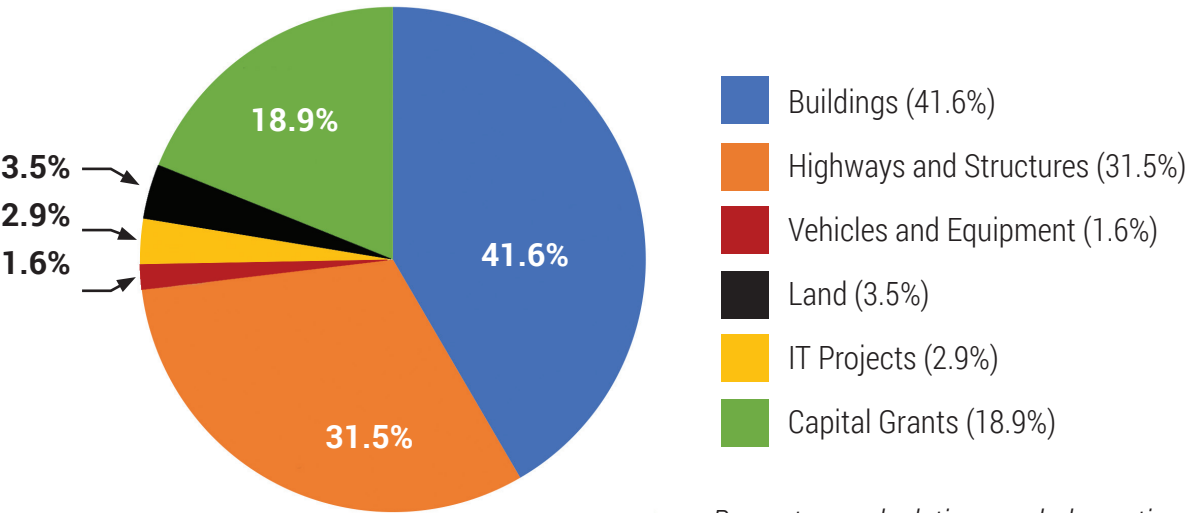

- \$208.5 million to build and renovate schools
- \$50 million for future land needs
- \$47.1 million to build and repair public housing
- \$45.5 million for information technology projects
- \$44.5 million for NSCC Sydney Waterfront campus and student housing projects
- \$20 million for storm damage repairs
- \$11.8 million for provincial park repairs and upgrades

Capital Plan 2024-25 invests \$483.3 million in projects outlined in the Five-Year Highway Improvement Plan.
