What Is the Capital Plan?

Each year, the government prepares the Capital Plan to lay out infrastructure investments for the coming year. The plan includes a list of capital assets, like schools, hospitals, roads, buildings, vehicles and technology, the public sector intends to acquire or develop to meet a need and serve Nova Scotians now and into the future.

The Capital Plan reflects the Department of Public Works' 5-year highway plan and the Department of Education and Early Childhood Development's school plan. Some projects are funded over many years and appear in successive annual capital plans.

The Capital Plan is part of Budget 2025-26 and is subject to approval by the Legislature.

Capital Plan 2025-26

The Province's capital spending program for 2025-26 will advance healthcare projects more quickly and ensure Nova Scotians can access new and improved hospitals, modern schools, safer highways and roads and other improved infrastructure.

Capital Plan 2025-26 will invest more than \$2.35 billion to start new projects and continue work on previously announced projects.

The plan invests in the Province's **More, Faster: The Action for Health Build** plan. Healthcare capital projects include:

- \$750.9 million for the Halifax Infirmary Expansion Project (HIEP) and Cape Breton Regional Municipality Health Care redevelopment project
- \$131.9 million for construction and renewal of other hospitals and medical facilities including projects in Amherst, Yarmouth, South Shore and at the IWK Health Centre in Halifax
- \$90.9 million for electronic health records (One Person One Record)
- \$42.0 million for Nova Scotia Health to repair and replace medical facilities
- \$32.0 million to repair and replace medical equipment
- \$19.2 million for new modular dialysis
- \$15.3 million for new Diagnostic Imaging equipment
- \$3.1 million for the second year of the Multi-Disciplinary Oncology Partnership

More Housing Faster: Housing projects include:

- \$47.4 million for new public housing units
- \$31.6 million to modernize and repair existing public housing units

Building Up Economy: Other highlights include:

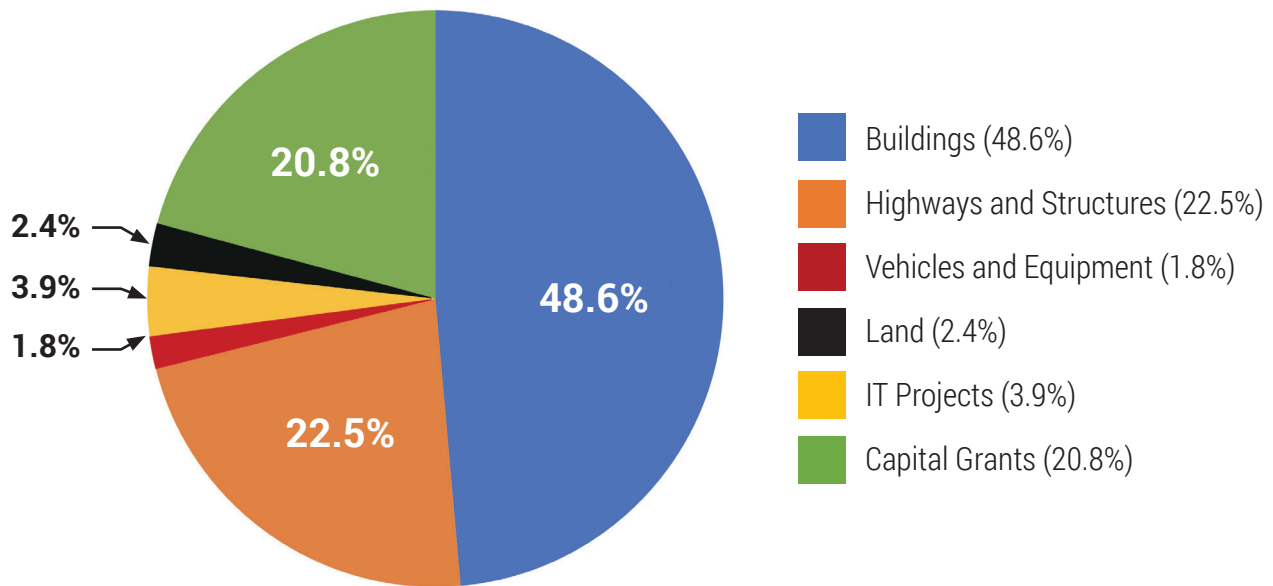

- \$210.0 million to build and renovate schools, including 3 that will open this year
- \$50.0 million to buy land for future needs
- \$90.2 million for information technology (IT) projects
- \$22.5 million for a funding envelope for storm damage repairs
- \$9.2 million for provincial park repairs and upgrades

Capital Plan 2025-26 invests more than \$500 million in projects outlined in the Five-Year Highway Improvement Plan.
