## PROVINCE OF NOVA SCOTIA 2014-2015 ESTIMATES EXPLANATORY NOTES

#### **INTRODUCTION**

The 2014-2015 Estimates represent the financial plan of the Province presented by the Government to the House of Assembly for the fiscal year commencing April 1, 2014. The Estimates provide the estimated revenues, expenses, capital purchases and debt management payments for the year based upon the policies, programs and priorities of the Government.

#### **ESTIMATES FORMAT**

The *Budgetary Summary* presents the *revenue*, *departmental expenses*, *refundable tax credits*, *pension valuation adjustment* and *debt servicing costs* of the General Revenue Fund and additional adjustments for the impact of consolidation.

Revenues, within the General Revenue Fund, include *ordinary revenues and ordinary recoveries*. Net income of Government Business Enterprises, including Halifax-Dartmouth Bridge Commission, Highway 104 Western Alignment Corporation, Nova Scotia Provincial Lotteries and Casino Corporation, and Nova Scotia Liquor Corporation is also included in Revenues.

Departmental expenses, within the General Revenue Fund, are presented on a gross basis by the primary categories of salaries and benefits, operating costs, and grants and contributions, less chargeables to other departments. Departmental expenses are also presented by programs and services in the supplementary information.

Consolidation adjustments in the Budgetary Summary include the revenues and expenses of Governmental Units, such as the health authorities, school boards, other governmental units and Government Partnership Arrangements. With the inclusion of these entities, the Budgetary Summary represents the expected operating results of the complete Government Reporting Entity. The expected results of Government Units, Government Partnership Arrangements and Government Business Enterprises are presented at the summary level for information purposes as they form part of the total Provincial Surplus or Deficit. Spending authority for each of these entities is provided in their separate legislation; therefore, a specific appropriation is not required in this Budget.

#### GENERAL REVENUE FUND SPENDING AUTHORITY - EXPENSE BASIS

Departmental expenses shown in the Budgetary Summary for 2013-2014 and 2014-2015 are shown at gross amounts less chargeables to other departments while other fees and charges and cost recoveries are included in revenues. The departmental expenses summary and resolutions (votes) for each department represent the total departmental spending authority. By providing for spending authority on a gross departmental expense basis, program costs are represented at their full costs and departments are able to ensure effective financial management in the delivery of programs and services which enhances financial responsibility and accountability.

#### TANGIBLE CAPITAL ASSETS

Tangible Capital Assets have useful lives extending beyond the accounting period, are held for use in the production or supply of goods and services and are not intended for sale in the ordinary course of operations. Tangible Capital Assets are recorded at gross historical cost, or estimated cost when the actual cost is unknown, and include all costs directly attributable to the acquisition, construction, development and installation of the Tangible Capital Asset, except interest. Any financial contribution towards a Tangible Capital Asset is recorded as revenue in the fiscal year when the related eligible tangible capital asset expenditures have been incurred.

Tangible Capital Assets include land, buildings, major equipment, computer equipment and software, vehicles, ferries, roads, highways, and bridges. Tangible Capital Assets do not include intangibles or assets acquired by right, such as forests, water and mineral resources or works of art and historical treasures.

A percentage of the original cost is charged to expense each year over the useful life of the asset using a declining balance method. If a snowplow is expected to have a useful life of 15 years then a percentage of its original cost is expensed in each of the 15 years. This charge to operations is called amortization. Capital leases are amortized on a straight-line basis.

In accordance with the Tangible Capital Asset policy, the *departmental expenses* include the annual amortization charge. The cost of the estimated purchases of eligible Tangible Capital Assets is voted separately in Resolution #42; Capital Purchase Requirements; Page 1.8.

#### **GOVERNMENT RESTRUCTURING**

Department of Finance and Treasury Board (formerly "Department of Finance") integrated the Treasury Board Office formerly associated with the Public Service Offices, effective October 22, 2013.

The Office of Planning and Priorities (formerly "Office of Policy and Priorities") was renamed effective October 22, 2013.

A new department, "Internal Services", was formed effective April 1, 2014. Internal Services consists of programs and services transferred in from various other departments and offices. These programs and services include the Chief Information Office (formerly held in the Public Service Offices); Payroll Client Relations, Operational Accounting Services, Payment Transaction Services, SAP Service Management and Internal Audit (all formerly held in Department of Finance); Building Services, Real Property Services, Environmental Remediation, Water Utilities, and Public Safety and Field Communications (all formerly held in Department of Transportation and Infrastructure Renewal); Procurement Services (formerly held in the Department of Economic and Rural Development and Tourism); the Queens Printer (formerly held in Communications Nova Scotia) and FOIPOP Advisory Services (formerly held in the Department of Justice).

A new department, "Municipal Affairs", was formed effective April 1, 2014. Municipal Affairs consists of programs and services transferred from various other departments. These programs and services include Municipal Services (formerly held in the Department of Service Nova Scotia and Municipal Relations); the Office of the Fire Marshal (formerly held in the Department of Labour and Advanced Education); and the Emergency Management Office (formerly held in the Department of Justice).

A new office, "Service Nova Scotia", was formed effective April 1, 2014. This office's programs and services were transferred from the former Department of Service Nova Scotia and Municipal Relations.

The Office of Immigration was moved to the Public Service, effective April 1, 2014. Formerly it was situated in the Department of Labour and Advanced Education.

The Advisory Council on the Status of Women has been transferred from the Department of Labour and Advanced Education, to the Department of Community Services.

#### **FUNDED STAFF**

Funded Staff is measured in *Full Time Equivalents (FTEs)*, which is a measure of the annualized person years of full-time and part-time staff. Only staff charged to a salary account in departmental expenses and having an employee-employer relationship with a given provincial department or Public Service appropriation are included in the FTE count. Where funding appears in the Estimates Book for an agency or organization as a grant or contribution from the Province, employees of that agency or organization are not included in the FTE count. Staff employed by the Province, but funded by external agencies, are reflected in the Funded Staff details that appear after the *Departmental Expenses by Object*. The FTE counts that appear in the Funded Staff figures shown on Page 1.14 of the Estimates Book are net of those funded by external agencies.

#### FINANCIAL REPORTING AND ACCOUNTING POLICIES

#### **Basis of Presentation**

The Public Accounts of the Province are prepared in accordance with Canadian Generally Accepted Accounting Principles (GAAP) for the public sector, which for purposes of the Province's financial statements are represented by accounting recommendations of the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants (CICA), supplemented where appropriate by other CICA and International Federation of Accountants accounting standards or pronouncements. The 2013-2014 Budget has been prepared following the presentation format used in preparing the 2011-2012 Public Accounts, except as described in the following paragraph:

The Budget incorporates the impact of consolidation with a summary adjustment using the equity method of accounting, not a line-by-line consolidation method. The equity method of accounting allows the Province to recognize its share, which is generally 100 percent for governmental units and a percentage ownership for Government Partnership Arrangements, of the surplus or deficit generated by those entities after the accounting policies of governmental units are conformed to those of the General Revenue Fund. This method of accounting will produce the same Provincial Surplus as a line-by-line consolidation. It has been adopted to facilitate preparation of the Budget because appropriations are relevant to the General Revenue Fund activities only. As a result, the components of the Budget, such as Revenues and Expenses, are not comparable to consolidated information contained in the Public Accounts. Presentation differences aside, the end result, Provincial Surplus or Deficit, is comparable because the Budget is prepared using the same overall accounting policies as those used for the Public Accounts.

Included in the *Public Accounts Volume 1 - Consolidated Financial Statements* is a reconciliation of the *Budgetary Summary* as presented in the Budget to the Public Accounts line-by-line consolidation format. The reformatted budget figures are presented alongside the actual results for the year in the consolidated financial statements.

#### **General Revenue Fund**

The General Revenue Fund is comprised of all departments and public service units of the Nova Scotia Provincial Government, but excludes Governmental Units, Government Partnership Arrangements and Government Business Enterprises controlled by the Province.

This Budget has been prepared using the following significant accounting policies:

#### **Revenues**

Revenues include ordinary revenue, ordinary recoveries, sinking fund earnings and net income from Government Business Enterprises. Revenues are recognized on an accrual basis.

Revenue Estimates do not include gains, such as gains on the disposition of assets purchased for use and not for resale, as they cannot be foreseen when preparing the Budget. Borrowings, such as proceeds from debt issues, which are financing transactions, are not included in the Statement of Operations.

Revenues include the following:

Ordinary revenue arises from taxation, transfers from the federal government, sale of goods, the rendering of services, use by others of government economic resources yielding rent, interest, royalties or dividends, and receipt of contributions such as grants, donations and bequests. Revenues from Personal and Corporate Income Taxes, Harmonized Sales Taxes (HST), Federal Equalization payments, Canada Health Transfer (CHT) and Canada Social Transfer (CST) are accrued in the year earned based upon estimates using statistical models. These federal revenues are recorded at the net amount estimated, after considering adjustments for tax. For any transfers received during the year for which stipulations creating a liability are not met by year-end, the amount is recorded as deferred revenue and recognized as revenue in the fiscal year in which the relevant stipulations are met.

Sinking Fund Earnings are recognized on an accrual basis. Sinking fund premiums and discounts are deferred and amortized over the remaining term of the investment and netted against sinking fund earnings. Amortization and realized foreign exchange gains and losses relating to sinking fund balances are also netted against sinking fund earnings.

*Ordinary recoveries* are created primarily from an agreement with an external party to compensate the Province for the full cost or a portion of the cost incurred on its behalf.

*Net Income from Government Business Enterprises* represents the estimated net income of Government Business Enterprises controlled by the Province for the fiscal year.

#### **Expenses**

Expenses include departmental expenses, refundable tax credits, pension valuation adjustment, and debt servicing costs. Expenses are recognized on an accrual basis.

Expenses include the following:

**Departmental expenses** are decreases in economic resources, either by way of outflows or reductions in assets or the incurrence of liabilities, resulting from operations, transactions and events expected to occur in the fiscal year. Expenses include the cost of economic resources consumed in and identifiable with the operations of the fiscal year.

Departmental Expenses include the following:

Forgivable loans and loans or investments issued with significant concessionary assistance are recognized as a grant expense when the loan or investment is made unless some or all of the loan or investment meets the definition of a loan receivable or investment and there is sufficient evidence of a reasonable expectation of its recovery. No grant expense is recognized for any portion considered a proper receivable or investment.

Government transfers are payments to individuals, organizations or other governments for which the Province does not receive any goods or services in return, does not expect repayment, and does not expect a financial return. The main type of government transfers are entitlements, transfers under shared cost agreements, and grants.

Government transfers are recognized as expenses in the period the transfers are authorized and all eligibility criteria have been met by the recipients. If a government transfer is paid prior to the recipient meeting all eligibility criteria, the transfer is expensed on the date of payment. An advance or prepayment of a government transfer is not recorded as a financial asset.

*Inventory of supplies* is expensed in the fiscal year when consumed, not the year in which the inventory is purchased, although in many cases the purchase and consumption of inventory will occur in the same fiscal year.

*Inventory for resale* is expensed in the fiscal year when it is sold, although in many cases the purchase and sale of this inventory will occur in the same fiscal year.

**Pension, retirement and other employee benefit plan obligations** are expensed by the departments when they record contributions paid or payable to these benefit plans. The remaining expense (recovery) associated with these benefit plans is included in debt servicing costs and pension valuation adjustment.

**Provisions** are made for probable losses on certain loans, investments, loan guarantees, accounts receivable, advances, forgivable loans, and for contingent liabilities when it is likely that a liability exists and the amount can be reasonably determined. These provisions are updated as estimates are revised, at least annually.

**Tangible capital asset amortization** is the allocation of the cost of a tangible capital asset over its useful life using a declining balance or straight-line basis appropriate to its nature and use by the Province.

**Pension Valuation Adjustment (PVA)** for pension, retirement and other employee future benefit plan obligations is comprised of current service cost, employee and employer contributions, amortization of net actuarial gains or losses, any changes in plan asset valuation allowance and any plan amendments which occur during the fiscal year. PVA represents the net amount of converting the cash-based government contributions to benefit plans recorded at a departmental level to the accrual basis of accounting. Related interest costs on benefit plan liabilities in excess of the expected return on plan assets are included in debt servicing costs.

**Debt servicing costs** include interest, amortization of debenture premiums, discounts and underwriting commissions, amortization of foreign exchange translation gains and losses on long-term foreign currency denominated debentures and the foreign exchange gains and losses realized on the settlement of foreign currency denominated debentures.

Debt servicing costs include the following:

*Interest* includes interest on short-term and long-term debt, net interest on pension, retirement and other employee future benefit plan obligations, other general interest, and the impact of any interest rate swaps used to manage interest rate exposure.

**Debenture premiums and discounts**, as well as underwriting commissions relating to the issuance of debentures, are deferred and amortized over the term of the related debenture. Amortization is charged to debt servicing costs on a straight-line basis.

Foreign exchange translation gains or losses on the translation of any non-hedged long-term foreign currency denominated debentures are deferred and amortized to debt servicing costs over the remaining term of the monetary item. For foreign exchange gains or losses on the translation of hedged long-term foreign currency denominated debentures, the gain or loss is offset by a counterbalancing gain or loss on the hedging foreign currency exchange contract used to manage foreign currency exposure.

#### Consolidation and Accounting Adjustments for Governmental Units

The consolidation and accounting adjustments for Governmental Units summarize the estimated impact of consolidating the entities controlled by the Province on the Provincial Surplus or Deficit for the fiscal year. Consolidation adjustments involve eliminating inter-governmental unit transactions from revenues and expenses.

The most significant adjustment is for transfer payments made during the year from the General Revenue Fund to the health authorities and school boards, whereby grant expenses in the General Revenue Fund are eliminated with their corresponding grant revenue recorded by the recipient entity. Accounting adjustments involve conforming the accounting policies of government units to those of the General Revenue Fund with the exception of Tangible Capital Assets where amortization rates and thresholds used by Governmental Units are not adjusted to those used in the General Revenue Fund.

#### **Government Reporting Entity**

The Government Reporting Entity is comprised of the General Revenue Fund, and other Governmental Units, Government Business Enterprises and Government Partnership Arrangements. Governmental Units and Government Business Enterprises are the entities controlled by the Government.

Control is defined as the power to govern the financial and operating policies of another organization with expected benefits or the risk of loss to the government from the other organization's activities. Control exists regardless of whether the government chooses to exercise its power to govern or not, so long as it has the ability to govern. Control must exist at the financial statement date, without the need to amend legislation or agreements. Government Partnership Arrangements represent entities for which decision making and significant risks and benefits are shared among other parties outside the Government Reporting Entity. The Province recognizes its proportion of the financial results of Government Partnership Arrangements.

Trusts administered by the Province are excluded from the Government Reporting Entity.

A complete listing of the organizations within the Government Reporting Entity is provided in Schedule 10 of the *Public Accounts Volume 1 – Consolidated Financial Statements for the fiscal year ended March 31, 2013.* 

#### **Provincial Surplus or Deficit**

The calculation of the province's annual surplus or deficit under Generally Accepted Accounting Principles (GAAP) for the public sector is comprised of revenues less expenses of all entities within the Government Reporting Entity.

#### **Comparative Figures**

Comparative figures for Estimates are based on the accounting policies in effect at the time the Estimates were prepared. Estimates are not adjusted for subsequent accounting changes once the appropriations are finalized.

The Province will adopt a new accounting standard as issued by the Public Sector Accounting Board effective for fiscal years beginning on or after April, 2014.

Section PS 3410 – 3260 – Liability for Contaminated Sites establishes standards on how to account for and report a liability associated with the remediation of contaminated sites. Specifically, the section: a) defines which activities would be

included in a liability for remediation, b) establishes when to recognize and how to measure a liability for remediation, and c) provides the related financial statement presentation and disclosure requirements.

#### MEASUREMENT UNCERTAINTY

Uncertainty in the determination of the amount at which an item is recorded in the budget and financial statements is known as measurement uncertainty. Uncertainty exists whenever estimates are used because it is reasonably possible that there could be a material difference between the recognized amount and another reasonably possible amount.

Measurement uncertainty exists in this Budget in the accruals for such items as pension; retirement and other employee future benefit plan obligations, environmental remediation obligations and revenues. The nature of the uncertainty in the accruals for pension, retirement and other employee benefit plan obligations arises because actual results may differ significantly from the Province's various assumptions about plan members and economic conditions in the marketplace. Uncertainty exists in the accruals for environmental remediation obligations because the actual extent of the remediation activities, methods, and site contamination may differ significantly from the Province's original remediation plans. Uncertainty related to Sales and Income Taxes, petroleum royalties, Federal Equalization Payments, Canada Health Transfer and Canada Social Transfer arises because of the possible differences between the estimated and actual economic growth assumptions used by the Province in statistical models to accrue these revenues.

## PROVINCE OF NOVA SCOTIA BUDGETARY SUMMARY - STATEMENT OF OPERATIONS (\$ thousands)

	10,297.0	9,851.0	10,402.4

(A) - In prior years, the FTE Summary presented FTEs rounded to the nearest whole number. Effective 2014-2015, FTEs will be rounded to one decimal place. This change is to ensure consistency and accuracy with the departmental reporting of FTEs throughout the remainder of the document.

Note: Funded Staff is measured in Full Time Equivalents (FTE's), which is a measure of the annualized person years of full-time and part-time staff. Only staff charged to a salary account in the Program Expenses and having an employee-employer relationship with a given provincial department or Public Service appropriation are included in the FTE count. Where funding appears in the Estimates Book for an agency or organization as a grant or contribution from the Province, employees of that agency or organization are not included in the FTE count. Staff employed by the Province, but funded by external agencies, are reflected in the Funded Staff details that appear at the end of each departmental section in the Supplementary Detail document. The FTE counts that appear in the Funded Staff figures are net of those funded by external agencies.

The Department of Agriculture has a legislated mandate to promote, support and develop a competitive and profitable agriculture and food industry. The Department leads and manages programs in the areas of resource stewardship, technology and innovation, value-chain, food protection and laboratory services, risk management, lending, and other development programs and services. Through a contract agreement with Dalhousie University, the Department also provides funding for the Dalhousie Agricultural Campus, formerly NSAC.

In 2014-2015, the Department of Agriculture will see a number of administrative changes. These changes will streamline and focus Departmental programs and services to better support a profitable and competitive agriculture and food industry for the benefit of all Nova Scotians.

Honourable Michel P. Samson Minister 6th Floor Centennial Building Halifax, Nova Scotia 424-5790 Mr. Simon d'Entremont Deputy Minister 6th Floor Centennial Building Halifax, Nova Scotia 424-2901

The Department of Economic and Rural Development and Tourism (ERDT) provides strategic leadership, in partnership with its family of agencies, other government departments and stakeholders in economic development and tourism to create a conducive environment for entrepreneurship and businesses to grow, strengthening Nova Scotia's economy.

The focus of the Department is on using productivity and innovation, strategic investment and trade, international commerce, workforce development, tourism, and our natural advantage as a gateway to North America as economic drivers. ERDT develops and advances corporate policies and strategies in these areas of focus to grow the economy across the Province.

ERDT leads key initiatives, delivers programs, makes strategic investments and builds regional economic development capacity.

Provincial Building
Halifax, Nova Scotia
424-5774

The mandate of the Department of Finance and Treasury Board flows primarily from the *Finance Act* which includes a leadership role in establishing and administering the fiscal framework and financial controls of the Province, and providing meaningful, transparent financial reporting, including the provincial budget, forecasts and Public Accounts.

The Department of Finance and Treasury Board provides professional services and support to provincial government departments and entities, manages the debt of the Province, regulates select financial institutions and provides policy oversight to the securities and liquor control sectors. The department delivers financial, accounting, fiscal and economic policy advice and provides statistical services to help inform decision making across government. The department supports the Minister of Finance and Treasury Board in overseeing certain crown corporations and agencies.

The Department of Labour and Advanced Education is committed to fairness, safety and prosperity for all Nova Scotians, and to helping Nova Scotians live, learn and work to their highest potential. The Department brings together government and industry partners on issues related to skills and learning, higher education, labour services, and safety.

The Department continues to take a lead role in implementing Nova Scotia's Workforce Strategy. In partnership with the Workers' Compensation Board, the Department will also begin the implementation of a new multi-year Workplace Safety Strategy for Nova Scotians. The Department will continue to work with Nova Scotia's post secondary institutions and community service delivery partners to create an environment that promotes lifelong learning, to ensure responsiveness to labour market needs in program and curriculum offerings, and to support the students' development of skills and aptitudes to be competitive in both local and global labour markets.

Public Service consists of resolutions for various offices, agencies, programs and services, which are presented separately in the Estimates by responsible administrative practice or policy. The Minister responsible for the administration of each resolution is noted in the details in the Estimates Book. The resolutions related to the operations of the Legislature and the Office of the Ombudsman, which are administered by the Speaker, will be introduced by the Government House Leader if the resolutions are introduced in the House for debate.

#### Office of the Ombudsman

# Honourable Kevin Murphy Speaker

The Office of the Ombudsman is required, by statute, to investigate and respond to citizens' concerns arising from the administration of provincial and municipal laws within Nova Scotia. The Office may also initiate own motion investigations, systemic issues, and matters referred to it by a Committee of the House. The Office's mandate has expanded to include a pro-active role in relation to the Province's programs and services for youth (including child death reviews), seniors, and adult corrections. The *Public Interest Disclosure of Wrongdoing Act* and Regulations mandates the Ombudsman to investigate allegations of wrongdoing in the provincial government brought forward by current and former government employees of the Province of Nova Scotia, as well as by members of the public.
